

Ruby Class Homework Autumn Term - 2021-22

All children are expected to complete the following each week:

1. **Reading** - Children are expected to read 5 x per week with an adult. Parents and carers are required to evidence 5 reads in reading diaries. Children who read 5 times per week will be rewarded.
2. **Spelling** - Children will have a selection of words to learn each week at home, which they will be tested on. We do encourage that you test or practice these spellings at home as this will further consolidate your children's knowledge of the English language. Nesy can also be accessed from home to provide additional spelling support.
3. **Times tables** - Children are expected to learn their times tables up to 12 x 12. Knowledge of times tables form a vital foundation for many mathematical topics covered in the year. All children have access to Times Tables Rockstars to allow them to practise at home.

Homework projects: Activities and projects will be set termly. Homework tasks consolidate learning taking place in school. Studies have shown that home learning can be extremely important in a child's cognitive development. It has been proven that your engagement at home with your child's home learning accelerates their progress.

Please choose 1 homework project to complete this term (as well as your weekly spelling/ times table practice).

We are inviting parents into school on **Friday 19th November 2021** to look at the homework project work. This will be an opportunity for pupils to show their learning, books and for home learning to be celebrated. Thank you for your ongoing support with your child's home learning,
Miss Floyd

Project 1 - Roman Britain

In History we are learning about the Romans and the Roman Empire. Your project will be to research an aspect of Roman life or the Roman empire and compare it to present day life. You will be asked to present what you have found out. Try to be creative in your presentations. For example you could create a poster, a model, a piece of artwork or do a PowerPoint presentation. Try to make your work stand out and have fun making it!

Project 2 - Mountains

In Geography we will be investigating mountains, looking at their formation and how they have been used through history. The project for this term will be about Dartmoor. You could present photos of a walk across Dartmoor or investigate the history of Dartmoor and how it was used 200 years ago. You may also wish to do a study of a particular area of Dartmoor such as Meldon or research the wildlife that lives on or around Dartmoor.

Project 3 - The world in your hands

This project is going to tap into your creative side. Use the questions to create your own piece of creative writing showcasing.

- Whose hands do we see in the picture? Why do you think this?
- If you held the world in your hands like this all day, what would you need to do to make sure it stayed safe?
- Do you think there are beings out there in the universe who could hold planet Earth in their hands?
